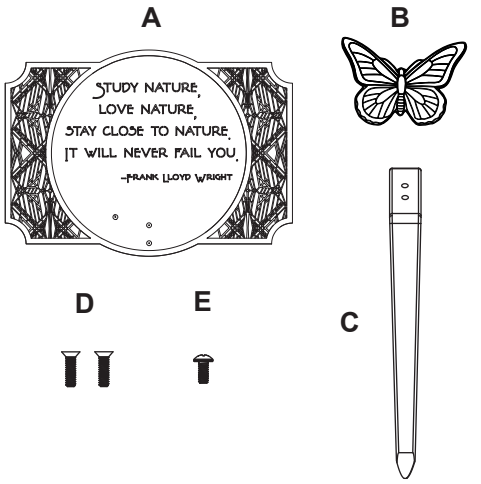
FLW Study Nature Garden Plaque



PARTS INCLUDED:

- **A** Study Nature Garden Plaque (1)
- **B** Butterfly Ornament (1)
- **C** Angled Black Garden Stake (1)
- **D** 6/32 x 1/2 Flat Head Philips screw (2)
- **E** 6/32 x 5/16 Pan Head Philips screw (1)

TOOLS NEEDED:
(Not Included)

Philips Screwdriver
Garden Trowel (For Hard Soils)

ASSEMBLY and INSTALL

1 Locate Angled Black Garden Stake (C) and remove the (2) 6/32 x 1/2 Flat Head Philips screws (D) from stake using Philips screwdriver.

2 Attach Garden Stake (C) to the bottom of the plaque (A) by aligning the pair of holes in the bottom center of plaque with pair of threaded holes in the stake. Use screws (D) previously removed to begin threading through the front of the plaque and into the pair of holes. Hand tighten with screw driver. (**See Figure 1**) **SEE BELOW FOR ASSEMBLY HELP**

3 Locate Butterfly Ornament (B) and unscrew the 6/32 x 5/16 Pan Head Philips (E) from the bottom of butterfly.

4 Attach Butterfly Ornament (B) to the top of the plaque (A) by aligning threaded hole in bottom of butterfly ornament with remaining hole on plaque with the screw (E) coming through the backside of the plaque to the front. (**See Figure 1**) Orient Butterfly Ornament as shown in **Figure 2** slightly turned right. Hand tighten with screw driver.

5 Find suitable location for completely assembled Study Nature Garden Plaque. Insert stake into soft soil by grasping the stake and pressing firmly until secure. For hard soils dig a 4” hole using garden trowel and insert stake and backfill with soil.
