⚠ Assemble in location for intended use.

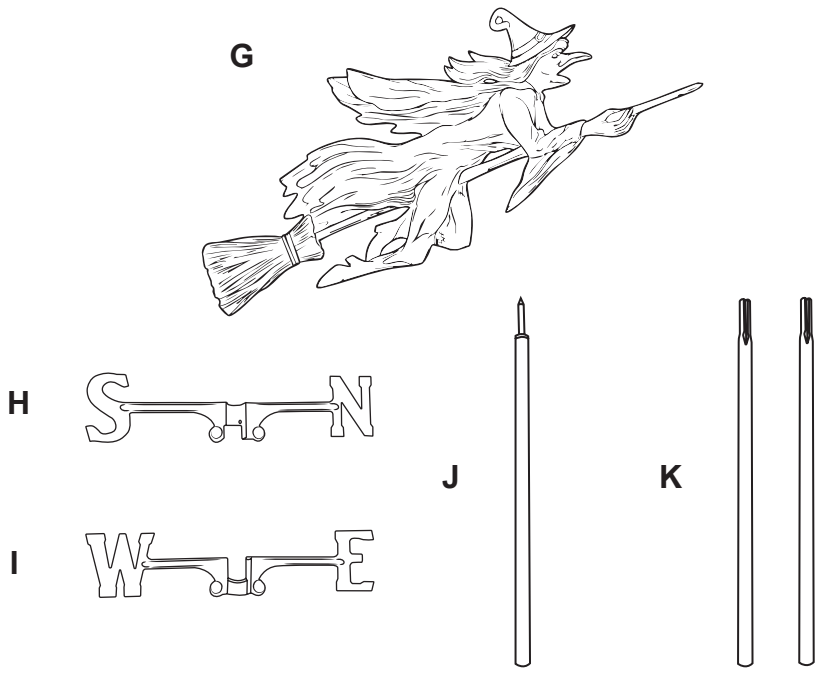
Ltr.	Qty.	Description	Hardware Included
A	1	Directional Support Ring	
B	1	Set Screw For Directional Support Ring	#6-32 x 1/2 Flat Head Screw
C	1	Set Screw For Directionals	#10-24 x 7/16 Truss Screw

REQUIRED TOOLS:
Rubber Mallet
Phillips Screwdriver

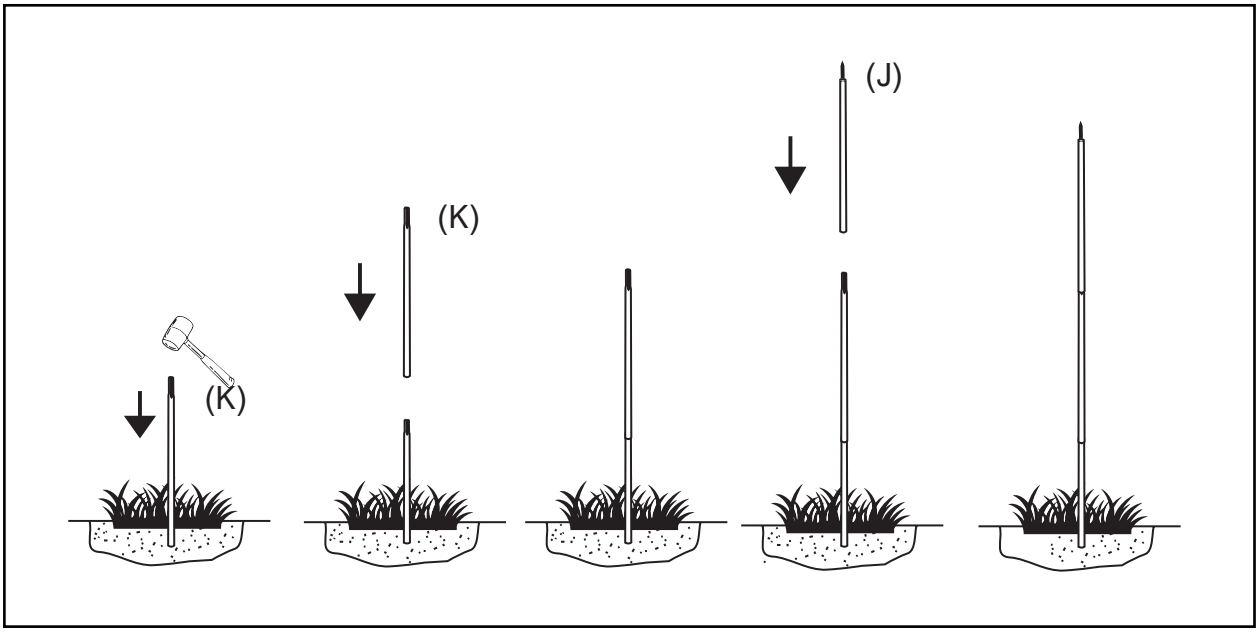
Remove all parts, hardware and protective packaging from carton and carefully arrange on a clean, level, padded surface.

ASSEMBLY TIME: Approx. 10 MINS

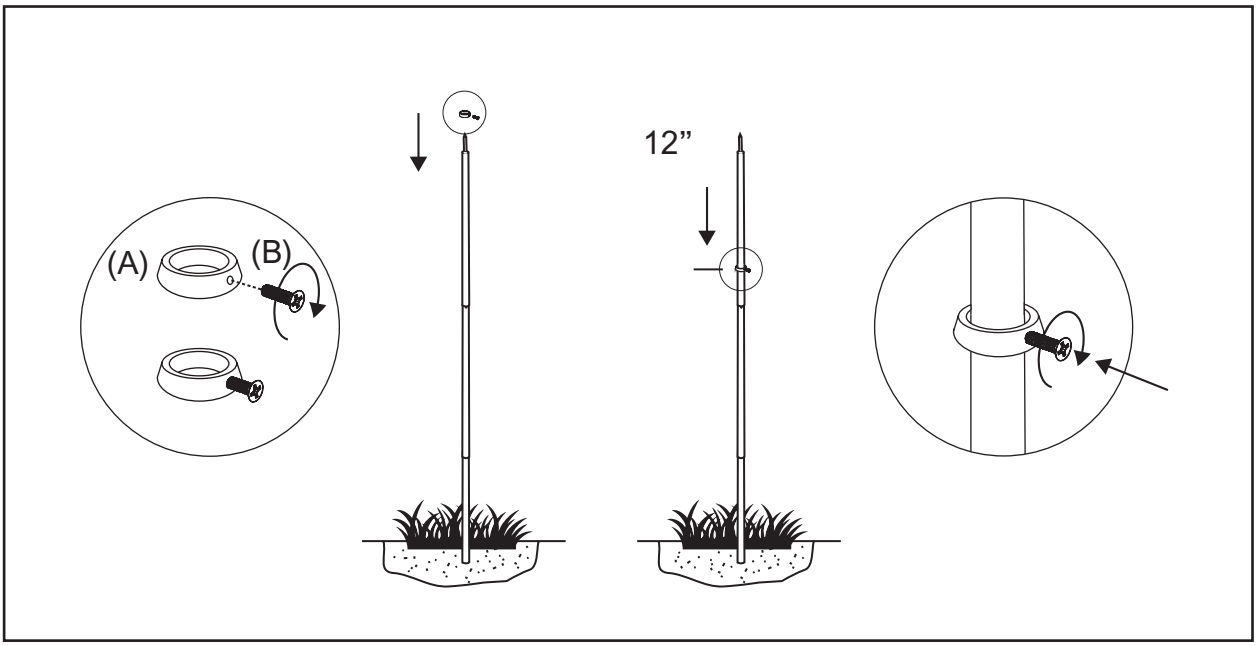
Ltr.	Qty.	Components	
G	1	Witch Ornament	
H	1	North / South Directional	
I	1	East / West Directional	
J	1	Mast Section with Pin	
K	2	Mast Section With Crimped End	



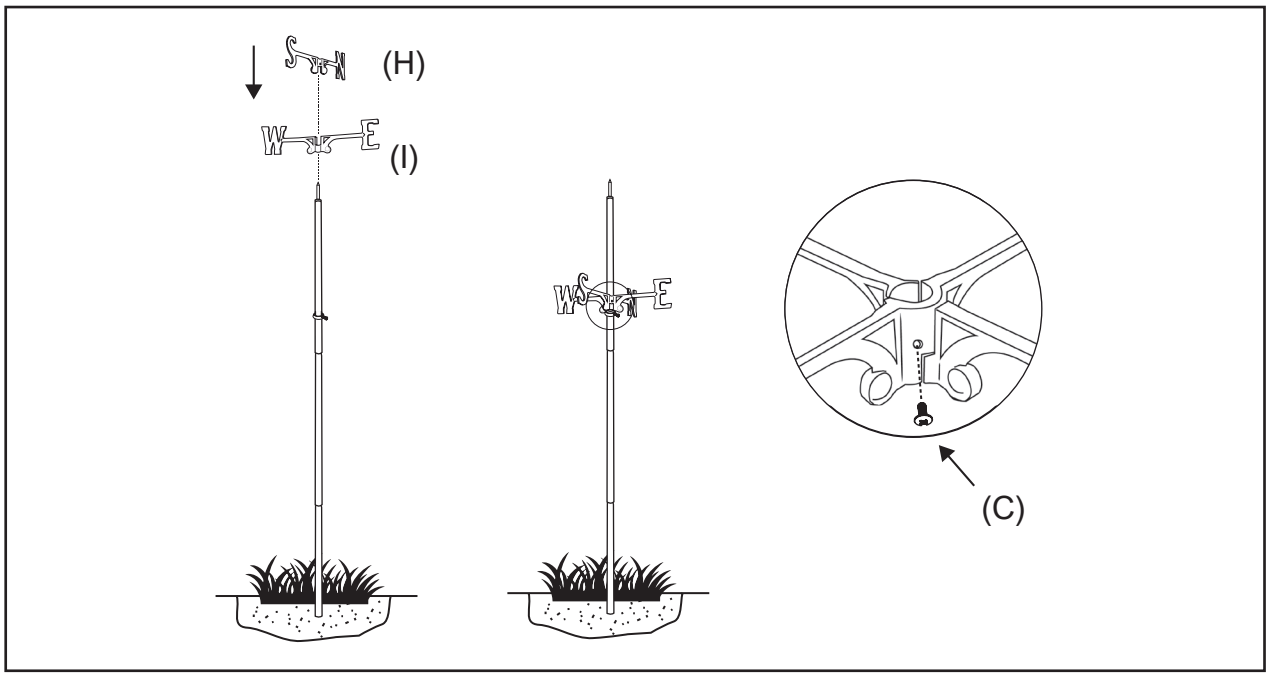
STEP 1: Using a rubber mallet, hammer mast section with crimped end (K) into ground with crimped end facing up 6-8 inches deep. Ensure mast section is plumb and upright. Add additional mast section with crimped end (K) to previous mast section, with crimped end facing up. Follow by adding last mast section with pin (J) to previous mast sections.



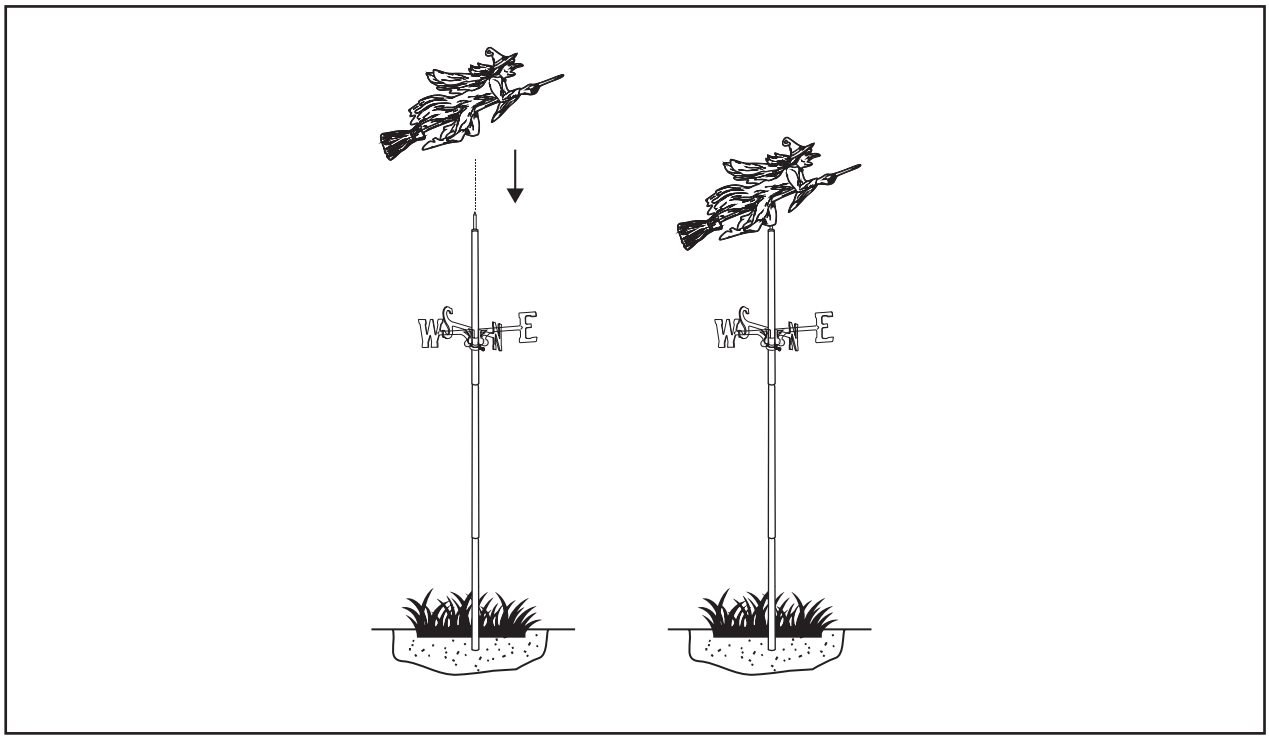
STEP 2: Slide the directional support ring (A) over the mast until it is approximately 12 inches below the top pin. Tighten set screw (B) with a Phillips screwdriver.



STEP 3: Slide the east/west directional piece (I) over the mast until the bottom rests on the directional support ring. Slide the north/south directional piece (H) over the mast until it interlocks with the east/west directional piece. Rotate the directional assembly until the “N” points north, then secure set screw (C) with a Phillips screwdriver. Do not overtighten.



STEP 4: Place the witch ornament (G) onto the pin at the top of the mast.



Care Instructions:
Clean the weathervane with water and a soft rag. Do not use harsh detergents or abrasives as this may damage the painted finish.
